How to insure your move:

First, you need to determine the full replacement value of your possessions being moved. Please fill out this document in order to calculate the full value of the goods being shipped. When items are listed together, all will be considered to be of equal value. If additional listings or clarifications are required, please write these on a separate sheet of paper and attach to these forms.

Get full value out of the plan.

All items must be insured. Do not deliberately under-value you possessions. You need to know that, if you under-insure your consignment, the underwriter will apply a co-insurance penalty to any claims. In simple terms, this means that, if you insure your total consignment for half of its true value, the insurer could reduce each and every part of a claim by 50% - regardless of its declared value.
